EDUCATION AND SCHOLASTIC ACHIEVEMENTS				
Program		Institute	% / CGPA	Year
Bachelor of Technology	Major - Mechanical Engineering	Indian Institute of Technology, Madras	7.55/10.00	2026
	Minor - Personal & Professional Development	Indian Institute of Technology, Madras	9.50/10.00	2026
Class XII (CBSE)		Lotus Valley International School, Gurugram	94.6%	2022
Class X (CBSE)		Lotus Valley International School, Gurugram	97.6%	2020
Scholastic Achievements	Secured AIR 2578 out of 10L+ students in JEE Main (99.72 percentile) and AIR 2301 out of 1.6L+ students in JEE Advanced			2022
	Received Award of Excellence - the highest academic honor bestowed at Lotus Valley International School, Gurugram			2022
	Received HScTSS¹ Scholarship from the Government of Haryana for exemplary academic performance in CBSE and NTSE			2021
	Received National Talent Search Examination (NTSE) scholarship and made the merit list, placing in top 2000 out of 10L+			2020
RELEVANT COURSEWORK AND SKILLS				
Business Analytics		WorldQuant Data Science Program	Product Reliability	Fundamentals of Operations Research
Operations Management		Time Series Analysis	Manufacturing Processes	Probability and Statistics
Programming Languages: Python, SQL, Javascript, R, MATLAB			Software Packages: Microsoft Office Suite, Power BI, AutoCAD	
PROFESSIONAL EXPERIENCE				
Strategy & Consulting Summer Associate Accenture India (May '25-Jul '25)	Worked on case aiming to establish the first supply chain services hub , a joint venture between 2 industry leaders in the MENA Region			
	Improving planning accuracy by implementing reclassification and forecast-based replenishment planning using the Box-Jenkins model			
	Reduced working capital by 27% by tackling obsolescence, volatility, and overstocking issues based on 3-year customer plant data			
	Ideated integration of SCRaaS² and Control Tower into existing tech stack, including Adobe, MiraKL, Blue Yonder, Oracle, ONE, SAP			
Strategy & Business Design Intern Monitor Deloitte (May '24-Jul '24)	Instituted a White Paper Project on Specialty Chemicals using Root Cause Analysis to decipher problems and recommend solutions			
	Performed research on 30+ companies to understand the problems faced by potential clients in the Specialty Chemicals Industry			
	Prescribed solutions to prevalent Procurement, Chemical Planning (S&OP), Logistics, Capital Management , and Sustainability issues			
	Architected solutions to Pricing Optimization using SARIMA models and Digitalization , integrating IoT and Digital Twin technology			
Business Analyst Intern BondsIndia (Jun '23 – Jul '23)	Developed business and functional requirement documents and solution proposal based on MoSCoW³ and RICE⁴ Scoring Models			
	Collaborated on developing content management systems , ensuring optimum integration with the existing implemented tech stack			
	Worked on API testing, Impact Analysis, and composed RFPs to solicit proposals meeting their needs for new systems implemented			
	Created a comprehensive Investment Summary on Tower 28 , a clean makeup brand, incorporating customer-oriented qualitative insights			
VC Deal Sourcing igniteXL Ventures (Mar '24 - April '24)	Developed a competitive benchmarking analysis in the Beauty and Wellness sector and analysed previous investments in Tower 28			
	Devised and suggested an advanced multi-year valuation strategy contingent on milestones achieved in the company's future			
	Happy Sneeze is a mobile health therapeutic intervention utilizing pelvic floor muscle training with women with urinary incontinence			
	Researched the Integrative Women's Health Industry to understand the product offerings, market size, structure, and market trends			
Market Research Intern Happy Sneeze (Jun '24 – Jul '24)	Developed a Competitive Landscape Map highlighting key players, their offerings, strengths, and weaknesses to develop a UVP⁵			
KEY POSITIONS OF RESPONSIBILITY				
Head Spons & IR Center For Innovation (Feb '25 – Present)	Spearheaded Sponsorship Avenues of Open House '25 and Research Conclave '25, a first-of-its-kind student expo with 10k+ attendees			
	Contacted 50+ Indian and international companies like GitHub, Jane Street, Autodesk, AnSYS , and Stellantis for sponsorship deals			
	3Xed outreach by collaborating with IITM Research Park, ICSR⁶ , and Centres of Excellence such as FedEx, Walmart, CTAP⁷ , etc			
	Conducted hackathons of 1000+ participants and a prize pool of over INR 5 lakhs each in collaboration with Appian and Alphagrep			
Inter IIT Tech 13.0 Case Guild and Travelling Contingent (Aug '24 – Present)	Led a 4-member travelling contingent, formulating solar panel recycling solutions presented to Insolation Energy Limited at IIT Bombay			
	Utilized a two-fold approach to converge on the effective solar waste produced in India based on prevalent prediction models			
	Performed cost-benefit analysis using discounted cash flow methods, converging results with top-down and bottom-up approaches			
	Drafted a 22-page report explicating our solution, and collaborated with other guilds to ensure quality submissions across all guilds			
Raftar Formula Racing (Mar '23 – Dec '23)	Business Plan	Ideated and planned a profitable business revolving around the vehicle for static events at multiple FS¹⁴ competitions in team of 10		
	Spons, PR, and Media	Evaluated the market and business using data analysis, linear regression, balance sheets, cash flows, and income statements		
		Developed an executable and profitable expansion plan including a Deep Dive Analysis incorporating various valuation implications		
MEA (Mar '23 - Apr '24)	Super Coordinator	Responsible for liaison between the team and its sponsors, public relations, event management, and post-event proof of branding		
	Coordinator	Provided detailed reports to stakeholders on the outcomes of sponsorship deals and PR activities to ensure open communication		
		Created compelling sponsorship proposals and presentations to attract, secure, and retain kind deals for Mechanica '24 & '25		
PM Coordinator Nirmaan (Oct '23 - Dec '23)	Responsible for liaison between the Pre-Incubation Startups and Nirmaan, and provided requirements as required by startups			
	Organizing sessions on entrepreneurship, with spokespersons from the industry, leading their specific domains of expertise			
	Researching and connecting people in the corporate industry to budding startups under Nirmaan, along with event-related logistics			
CASE COMPETITIONS				
Inter IIT Tech 2024 Case Guild	Created a QCMINLP⁹ algorithmic model to optimize logistics for a hybrid infrastructure of biological, chemical, and mechanical processes			
	Reduced the cost of operations by identifying 8 optimal locations across India by employing K-means clustering and a Gurobi solver			
	Suggested a circular economy model based on a phased policy implementation timeline, incorporating incentives for manufacturers			
SJMSOM IIT Bombay	1st out of 500+ teams- Built CAPEX plan and GTM strategy for a domestic Q-Commerce player to expand into B2B supply chain industry			
	Targeted SMBs across 7 Tier-1 cities, reducing traditional distribution margins by 58-64 % to 5-9 % based on weighted heuristics			
	Projected 80% reduction in processing time, 40% in inventory costs, 30% in operating costs using industry standard supply chain analytics			
Sankalan'25 IIT Kanpur	Secured 3rd place among 200+ teams in a national-level infrastructure conclave organised by IIT Kanpur , aimed at remodelling NDRS⁸			
	Proposed a redevelopment plan to ease overcrowding by 12% and enhance multimodal connectivity based on iterative designs			
	Designed sustainable infrastructure upgrades, maximizing energy efficiency & minimizing passenger disruption and waste management			
Young Leaders' Masters' Union	Top 10 out of 800+ national teams- Proposed consumer education, innovative product formulations to reduce stigma around hemp			
	Predicted a 2X increase in adoption rates by expanding e-commerce and retail partnerships to increase accessibility and awareness			
Road Safety HOAI & NHAI	Top 20 out of 21000+ teams- Designed solutions to improve the Velachery-Taramani Link Road Foot Over Bridge, a high-traffic area			
	Built a behavioral solution incorporating enhanced lane configuration, intelligent traffic flow management , and safety measures			
Teliport Tata Elxsi, 2024	Top 50 out of 1L+ teams – Ideated the technical concept for a scalable, AI-enabled robotic rail wagon crawler inspection platform			
	Architected a robotic arm for precise sensor deployment, integrating LIDAR¹⁰ , ultrasonic transducers, and thermal imagers for diagnostics			
	Engineered an implementation approach, including quality testing, field trials, and regulatory compliance to ensure long-term viability			

Athena’s Proposal Inspiria Knowledge	• Top 8 out of 250+ teams, pitching a hunger-suppressing tablet targeting overall health development and obesity challenges • Architected Vibrating Ingestible Bio-Electronic Stimulator and built a Technology Readiness Level timeline with testing strategies
McKinsey’s Consularium DOMS, IIT Madras	• Top 8 out of 1000+ teams, developing a solution to optimize an existing distribution network using scenario planning and prototyping • Increasing market output by 50% and developed logistic strategies to optimize transportation routes, resulting in a recovery of 20-22%
NationBuilding, 2025 Nation With Namo	• Top 50 out of 1L+ teams- Developed a strategic roadmap for India to achieve 100+ medals, including 35 gold medals in the 2036 Olympics • Developed a 6-phase implementation strategy with a focus on grassroots training & development to achieve the goal of “Viksit Bharat”
HSBC IBCP ¹⁶ 2024	• Top 100 out of 1L+ teams- Ideated a multifaceted solution to strategize the phase-by-phase expansion of a pet store based in Delhi • Transformed pricing plans, optimized finances, and devised knowledge transfer sessions to ensure intra-company vision synergy
RESEARCH ENDEAVOURS & TECHNICAL PROJECTS	
Solar Panel Recycling BTech Thesis Prof- Srinivas Reddy	Designing Solar Panel recycling infrastructure and solutions, integrating a circular economy framework with policy recommendations • Analyzed solar panel recycling industry challenges, using Weibull failure models to predict waste generated based on a 37.2% CAGR • Reduced expenditure by 12% based on a Benefit-Cost Analysis value of 1.64, weighing out factors from asset depreciation to self-reliance
Battle of Neighbourhoods	• Processed 500+ venue records from Foursquare API using K-means clustering, building an interactive Folium map with 20+ clusters • Automated the data pre-processing and workflow documentation and provided venue density data and hotspots for retail expansion
Movie Booking Web Application (React.js)	• Developed a React single-page app with dynamic movie listing, seat selection, and optimum booking flow using technical components • Implemented routing and state management for smooth navigation across multiple sections and pages and seat availability tracking
Movie Recommendation System	Developed a Python-based machine learning model for a content and popularity-based movie recommendation system based on metrics • Built a hybrid recommender with TF-IDF, cosine similarity, and popularity scoring, boosting by relevancy by ~20% over baseline • Integrated fuzzy string matching (difflib) to solve misspellings/partial inputs, and designed an interactive CLI for real-time input
Bulldozer Price Prediction Model	• Cleaned and engineered 4L+ records, optimized model pipeline with features and tuning, improving accuracy by 15% over baseline model • Trained robust regression models (Random Forest, XGBoost), achieving an RMSLE value of 0.2456 on the Kaggle dataset leaderboard
Security Analysis and Portfolio Management	• Applied Markowitz Portfolio Theory to construct Minimum Variance Portfolios with 7 international and domestic securities and gold • Optimized asset weights using Solver and visualized the Efficient Frontier to analyze risk-return trade-offs, minimizing portfolio tangency
Financial Risk and Asset Management	• Applied the Capital Asset Pricing Model for risk–return assessment and ARIMA for asset price forecasting across 6 listed companies • Employed GARCH/EGARCH models to analyze volatility dynamics, calculated Value at Risk for portfolio risk evaluation using R and Python
Financial Management	• Implemented Python to estimate cost of equity via CAPM and industry beta analysis, applying regression on historical returns for 5 years • Combined cost of debt and WACC calculations to support strategic financial assessment using a bifold Top-down & Bottom-up approach
EXTRA-CURRICULAR ACTIVITIES	
Inter IIT Cultural WGC ¹⁰ Contingent	• Represented IIT Madras as a part of the WGC Contingent in the Cryptic Crossword and Scrabble event held in Inter IIT Cultural at IIT Patna • Competing in the Cryptic Crossword, Potpourri, and WTGW¹¹ events at Festember 2024 at NIT Trichy, against 100+ colleges across India
Case Guild Mentor	• Leading the upskilling of the 25-member Case Guild through weekly industry-specific lectures and pan-India case competitions • Part of the front-facing community, disseminating key insights and knowledge transfer to the budding tech contingent at IIT Madras
UN Millennium Fellowship	• Selected to be a campus member of the UN MCN fellowship program under the United Nations Academic Impact at IIT Madras • Developed recycling solutions in collaboration with multiple professors at IIT Madras, working on the UN SDG of Sustainability
Chess	• 3rd place finish as a part of a 6-member team representing Mechanical Department in the IDL¹² competition with 100+ competitors • Represented Alakananda hostel as a part of a 6-member team in the Institute’s Inter Hostel Schroeter Trophy with 120+ competitors
Taekwondo Red Belt	• Taekwondo Red Belt certified by WT¹³ Participated in 10+ competitions representing Global Indian International School, Malaysia
Saathi	• Part of Saathi mentorship program and mentored 3 first-year students by providing them required support in their 1st year at IITM • Conducted guidance sessions for freshers on topics such as self-growth, physical and mental wellbeing, and collaborative mindset
